PROGRAMMABLE SKIP TWIN NEEDLE UNIT AND CORNER V2251

FLEXIBILITY

EFFICIENCY

QUALITY

The V2251, Vi.Be.Mac. programmable skip twin needle can work in 3 different modes: corner, PLC or standard 2 skip needles.

The corner mode is ideal to stitch corners, and makes the V2251 perfect to sew pocket corners, flaps and cargo pockets.

The PLC mode allows to create any 1-2 needle sequence, being able to perform up to 4 different operations.

The advantages of replacing two or more 1-2 needle standard machines with one V2251 are numerous. There will be a drastic saving in terms of: number of operators, number of helpers necessary to move the garment, space in the production line, energy/air consumptions, spare parts consumption.

▶ NEW THREAD CATCHING SYSTEM

An efficient electric thread catcher without air consumption

▶▶ RELEASABLE NEEDLES IN PLC

Possibility to release both the right and the left needle alternatively in PLC mode

TECHNICAL SPECIFICATIONS

Max Sewing Machine Speed: 3000 rpm

Stitching Length: from 0.5 to 4.5 mm

Standard Needle Gauge: 1/4" (6.4 mm)

Optional Needle Gauges: 1/8" (3.2 mm)

3/16" (4.8 mm) - 5/16" (8 mm)

3/8" (9.5 mm) - 1/2" (12.7 mm)

Sewing Head: Vi.Be.Mac.

Control Box: XCG MFY 2005

Sewing Machine Motor: Mitsubishi Juki

XCG 554 20Y - 550 W

Power Supply Voltage: 220 V 50/60 Hz

Air Consumption: 0.5 / 0.7 L/min

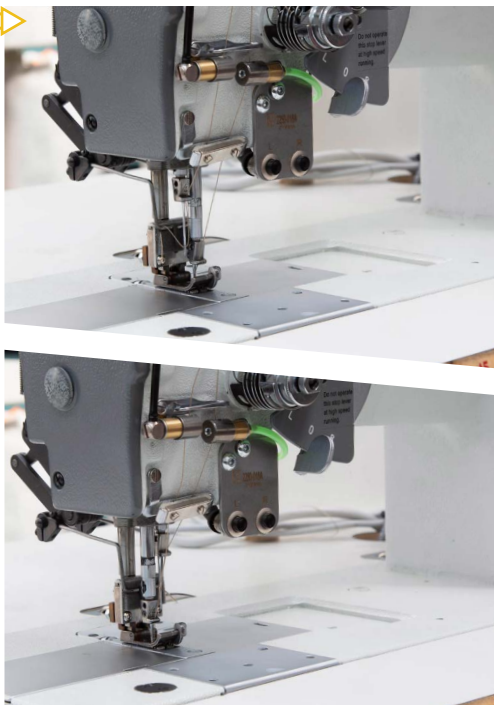

PLC MODE

- ✓ Possibility to release both the right and the left needle alternatively
- ✓ The operator can easily vary the sequence of sewing at any moment for stylistic/ fashion or production reasons
- ✓ The sequence skips to the next step once the operator presses the pedal backward, minimizing the waste of time

CORNER MODE

- › Possibility to select one needle instead of the other one
- › Possibility to program number of stitches that has to be skipped
- › The sequential use of right-hand/left-hand needle can be switched manually at any time by the operator for a perfect quality result

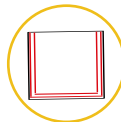

FEATURES

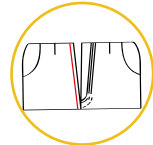

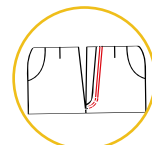

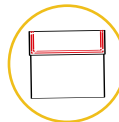

- Special compensative presser foot, divided in 2 parts to adapt to every kind of fabric
- Pneumatic pressure foot lifter
- Thread trimmer
- New design of the stand

STITCH ZIPPER

CORNER OPERATIONS

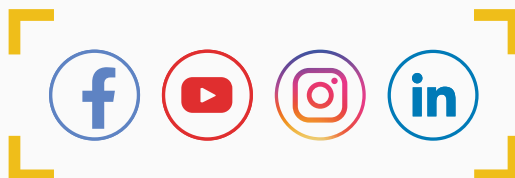

2 NEEDLES OPERATIONS

Models available: V2251, V2250 (in PLC mode only left needle is releasable)
