Top & Bottom Feeding Computerized Lockstitch Machine for Heavy duty

H5

H5

Item:Top & Bottom Feeding Computerized Lockstitch Machine for Heavy duty
Characteristics:Good Looking, Sewing for Heavy Materials, Good to use

H5 Series Application Case: Gloves, Car Seat, Bags and Suitcases Bed-mat, Slippers, Baby Carriages, etc.

German Industrial Design, Unique Vision, Highest quality of Art, Well-made,Fantastic Detail

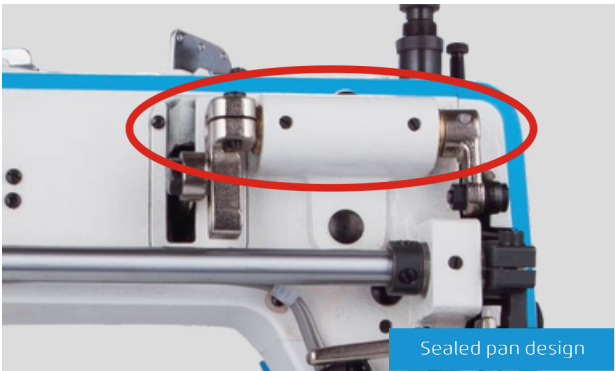

1 For heavy materials, high efficiency

Top and Bottom feeding, 750W motors, extremely for heavy materials, sewing for 10 layers of leather with beautiful stitches.

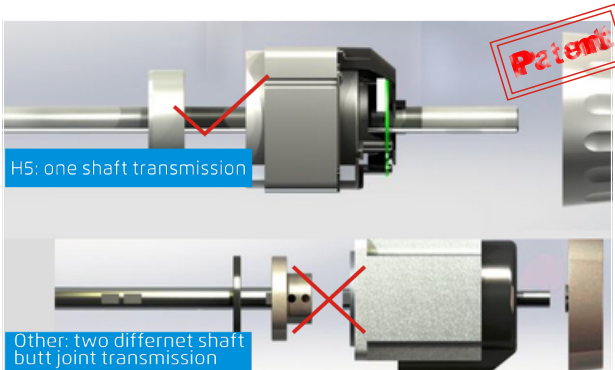

2 Stable overlapping stitch, good quality.

Realize 6 stitches overlapping, suitable for most of technological requirements, good quality.

3 Sealed oil pan design, no oil, no trouble

Sealed presser foot lifter shaft, oil free with imported solid grease lubrication.

5 One Shaft Design, peaceful and stable

One shaft design reduces the machine torque and makes feeding more stable. It is durable with low noise.

4 Integrated, Easy to Install

Integrated, stable and reliable; Easy to install, very convenient.

6 Free Set, Factory Reset

Users can reset to own parameters and out of factory parameters according to requirement. It is easy to operate and meets all sewing technological requirements. No need to worry about wrong operation.
