

# SM-08

AUTOELASTIC ATTACHING MACHINE

## Patented fabric edge controlling technology

### Buying points

1. Do not rely on skilled sewing workers, easy to use
2. Patented fabric edge control technology
3. Efficiency: 10s/pc
4. Width of sewing elastic band: 20-55mm, Perimeter: 560-1500mm
5. One key start, one person can operate two sets at the same time
6. The elastic belt does not need to be positioned and can be sewed evenly automatically
7. Automatic size control
8. Auto start-stop according to the position of side seam
9. The threads are trimmed automatically when sewing is finished
10. Automatic waste collecting device

### Application

Applied to  
Waistbanding process

### Head selection

Model: optional with Taiwan SiRUBA, Shanghai Lijia, Japan PEGASUS and KANSAI SPECIAL

### Product details

Auto thread trimmer Effectively reduce the residual thread after sewing

Simple operation: one click start, It is easy to realize automatic sewing without manual assistance

Easy to understand: Intelligent voice Chinese-English interface, easy to learn and operate

Automatic retracting device: Automatically execute exaggerated length, and various lengths can be preset

### Main Specification

Equipment parameters	SM-08
交流电压 AC voltage	AC 220V
额定气压 Rated air pressure	> 0.5 Mpa
最高缝制速度 Maximum sewing speed	4000转 rpm
缝制范围 Sewing range	56cm-150cm (圆筒形缝制品) (Cylindrical sewn products)
机针型号 Needle type	DC x 1
缝制效率 Sewing efficiency	10秒左右每件 (按周长76cm制品测试) About 10 seconds for each piece (Tested according to 76cm circumference)
净重 Net weight	193kg
毛重 Gross weight	223kg
包装尺寸 Package size	1100(Length) x 800(Width) x 1260(Height)mm
