

SM-10

AUTO WAISTBAND MULTI-NEEDLE MACHINE

One man handles two sets

Buying points

1. Do not rely on skilled sewing workers, easy to use
2. Automatic selvedge control
3. 10s/pcs
4. Width of sewing elastic band: 20-55mm, Perimeter: 760-1500mm
5. One key start, one person can operate two sets at the same time
6. The elastic belt does not need to be positioned and can be sewed evenly automatically
7. Multi needle gauges for options.
8. Auto start-stop with perfectly aligned overlapping stitches.
9. Auto thread trimming and waste collection

Application

Applied to
Sewing of elastic waistband

Head selection

Model: optional with SiRUBA

Product details

F X 4 4 1 2

Automatic retraction:
The expansion length is automatically executed, and various lengths can be preset

Auto thread trimmer:
Effectively reduce the residual thread after sewing

Simple operation: one click start.
It is easy to realize automatic sewing without manual assistance

Main Specification

Equipment parameters	SM-10
交流电压 AC voltage	AC 220V
额定气压 Rated air pressure	> 0.5 Mpa
最高缝制速度 Maximum sewing speed	3000 rpm
缝制范围 Sewing range	Perimeter 76cm-150cm Width 2-5.5cm
机针型号 Needle type	DU x 57
缝制效率 Sewing efficiency	About 10 seconds for each piece (Tested according to 76cm circumference)
净重 Net weight	193 kg
毛重 Gross weight	223 kg
包装尺寸 Package size	1100 (Length) x 800 (Width) x 1260 (Height) mm
